

Information Technology

Mission:

Continue to increase Rio Rancho technological leadership in high performance computing and computer communications. Provide wide dissemination and application of technologies to speed the pace of innovation and to enhance service delivery, public safety, public programs, increase regional economic competitiveness and assist in coordination of local government activities; and provide key enabling technologies to enhance City information infrastructure and City information infrastructure applications.

Primary Services:

- Support all City hardware and software
- Support all City telephony
- Implement, install and maintain voice and data technology systems
- Provide technology planning and project management
- Administrative services

Information Technology is responsible for all information technology policy and management. These duties include providing administrative overview, guidance, and foundation in the areas of planning, recommending, installing and supporting all computing and telecommunication technology resources utilized in City of Rio Rancho municipal functions.

FY 18 Department Goals by City Strategic Goal

Strategic Goal: Organizational Vitality

- Technology needs assessment
- Network best practice and security assessment
