The City of Rio Rancho acts only as the "Contracting Agent" for these public bodies. Failure to extend a contract to any public body will have no effect on consideration of your bid.

**Responsibility for Damage:** The successful Bidder shall be responsible for any damage caused by its delivery, removal or installation. Damage shall be reported immediately to the designated City representative.

**Delivery, Unpacking, Assembly and Placement:** Any offer in response to this IFB must include delivery, unpacking, assembly and placement of items as specified in this IFB. **Estimated Quantities; Not an Order:** The estimated quantities listed do not constitute an order and are not necessarily comprehensive; they are a representative sample of what is likely to be purchased during the course of a contract resulting from this IFB and will be used only to evaluate offers and award such a contract. These quantities as stated may increase or decrease depending on the actual needs of the City. The user will place actual orders. The terms of this Agreement and all amounts payable hereunder are contingent upon sufficient appropriations therefor by the City's Governing Body. If sufficient appropriations are not made, the City shall notify the Contractor of the same, and this Agreement shall terminate forthwith.

**Freight and Shipping:** Freight will be F.O.B. Destination. F.O.B. point other than indicated by the City will not be acceptable. The City requires two day shipping at no extra cost on most items being ordered due to the nature of the need of supplies for emergency services, if items cannot be shipped in that timeframe, vendor shall notify the City of the delay in shipping within 24 hours of ordering.

If required coverages are provided by separate policies, each policy shall have the liability limits required above. Such policy(ies) shall include coverage for all of Contractor's operations performed for the City, coverage for the use of all owned, non-owned and hired automobiles, vehicles and other equipment, both on- and off-site, and contractual liability coverage that specifically insures the Contractor for any liability arising from its indemnification obligations under the Contract resulting from this IFB. Prior to commencing any work under the Contract, the Contractor shall provide the City's Purchasing Office one or more certificates of

insurance demonstrating the Contractor's fulfillment of the foregoing insurance requirements. The Contractor shall require the same insurance coverages and endorsements from each subcontractor engaged by the Contractor to fulfill any of its obligations under the Contract resulting from this IFB. The City shall be named an additional insured in each such policy maintained in satisfaction of the foregoing requirements.

All insurance policies maintained in satisfaction of the foregoing requirements shall provide that the City's purchasing office be given thirty (30) calendar days prior written notice before the policy is canceled, materially changed, or not renewed. Neither the City's approval, nor failure to disapprove, any policies or evidence of insurance shall relieve the Contractor or any subcontractor(s) of full responsibility for maintaining the required insurance in full force and effect for as long as required by the contract.

**Worker's Compensation Insurance:** The Bidder, if awarded a contract as a result of this IFB, shall comply with the provisions of the Worker's Compensation Act, Subsequent Injury Act, and the New Mexico Occupational Disease Disablement Law. The Bidder shall obtain and maintain complete Workers and Employee's Liability Insurance in accordance with New Mexico law and regulations during the life of any contract resulting from this IFB. In the event that the Bidder is not required by law to obtain Worker's Compensation Insurance, the bidder shall provide a certified statement attesting that the Bidder will obtain such coverage should the Bidder, in the course of any contract resulting from this IFB, be required by law to do so. If any portion of the work is to be sublet, the Bidder as primary contractor, shall require the subcontractor(s) to provide the same coverage for all employees working under this contract. The City, its officers or employees, will not be responsible for any claims or actions resulting from the failure of the Bidder or any subcontractor to comply with the provisions of this paragraph.

**Laws and Regulations:** The Bidder shall give all notices and comply with all laws, ordinances, rules and regulations that apply to this work. The Bidder shall obtain and pay for all permits and licenses necessary to execute and complete the work. All required licenses must be in force at the time of submission of a bid and remain in force during the entire period of any contract resulting from this IFB. Failure to provide proof of required licenses in force will result in the offer being judged non-responsive.

**Non-exclusivity:** The City reserves the right to engage other contractors to perform services described herein, and the Contractor likewise may provide the same services to other clients; provided, however, the Contractor shall devote reasonable time and effort to any task undertaken hereunder.

**Materials and Workmanship:** All materials and/or workmanship furnished by the Bidder shall be free from defects and imperfections. Workmanship shall be in accord with the best industry standards and practices. Both materials and workmanship shall be subject to the approval of the City.

**Price Escalation:** If the Bidder does not offer a firm price, or if a bid contains an escalation clause, the offer may be considered only under the following conditions:

- a. Offered prices must be firm for at least one (1) year after written notification of award of a contract.
- b. All price increases shall be accompanied by a certified letter from the Bidder's supplier showing the price increase to the Bidder.
- c. All invoices of the offered items, from suppliers to the Bidder, shall be subject to auditing by the City and furnished without delay upon request.
- d. The City reserves the right to cancel a contract resulting from this IFB and solicit a new contract if the escalated price is above the current open market price for the same commodity. Cancellation of the contract shall not affect any outstanding orders.
- e. All revisions of the price list shall become effective when they are received, in writing, and accepted, by the Purchasing Office of the City, provided that they do not conflict with item (f.) of this paragraph.
- f. All approved price changes resulting from this escalation clause shall be firm for a period of one (1) year after acceptance in writing by the City.
- g. The Bidder shall be limited to a maximum of one (1) price escalations per contract period unless otherwise specified in this IFB.
- h. The Bidder shall provide to the City written notice of any requested price changes at least sixty (60) calendar days prior to those changes taking effect.
- i. If the Bidder receives any price de-escalations from the supplier of goods sold to the City through a contract resulting from this IFB, the Bidder is responsible for notifying the City within twenty-four (24) hours of such de-escalations, and passing those price changes on to the City immediately.
- j. No price increases shall exceed 10% of the existing contract price.

**Release/Indemnity:** By its receipt of final payment of all amounts due under this Agreement, the Contractor shall release the City, and its officers and employees, from all liabilities, claims, and obligations whatsoever, arising from or under this Agreement. The Contractor shall indemnify and defend the City and hold the City harmless for and from any and every claim, action, liability, loss, damage or suit, arising from the fault of the Contractor in performing (or omitting to perform) services hereunder.

**Removing Debris and Cleaning the Area:** The Bidder shall, during the progress of the work, remove and dispose of all debris and keep the premises clean and safe. When the work is complete, the Bidder shall remove all construction equipment and surplus material (except materials that are to remain the property of the City as provided in the specifications) and leave the premises in a clean condition satisfactory to the City.

**Risks:** All risk of deterioration, destruction, and loss of materials and equipment stored at the site of the work shall be borne by the Bidder.

**Service Facilities:** The Bidder, upon submitting a bid in response to this IFB, must have service facilities, which are, in the opinion of the City, adequate to perform the services specified in this IFB. The City reserves the right to inspect and determine if the facilities meet this requirement. The final determination of satisfaction of this requirement rests with the City.

**Shelf Life of Merchandise:** the City shall compute Shelf life from the time of delivery to and acceptance.

**Site Inspection:** all Bidders are required to conduct an on-site inspection. Failure by the Bidder to become acquainted with the conditions affecting the work specified in this IFB shall not constitute relief from responsibility for estimating properly the difficulty or cost of successfully performing the work. The Bidder shall be responsible for any excess costs resulting from failure to estimate accurately. Failure to conduct an on-site inspection may result in the rejection of a bid.

**Sub-Contracting Services, Disallowed and Approval:** All services provided as a result of this IFB must be performed by the Bidder to whom the contract is awarded. No subcontracting shall be allowed unless approved in writing from the City.

**Termination:** Either party may terminate this contract upon written notice to the other at least thirty (30) calendar days in advance of the date of termination.

**Title:** Title to all items of tangible personal property, services and construction provided pursuant to a contract resulting from this IFB shall pass to the City at the time of payment free and clear of all liens, claims, security interests and encumbrances.

**Use of Agreement:** This Price Agreement may be utilized by any State of New Mexico Agencies, Commissions, Institutions, Political, Sub-divisions and Local Bodies allowed by law.

**Working Conditions:** The City is not responsible for obstacles, unfavorable conditions, or hazards, which may be encountered by the Bidder, either above or below ground. These conditions are part of the risk and responsibility of the Bidder.

**Work Site Damages:** Any damages to existing utilities, equipment or finished surfaces resulting from the performance of this contract shall be repaired to the Owner's satisfaction at the Contractor's expense.

**SPECIAL CONDITIONS****SPECIAL CONDITIONS - SUPPLIES**

Periodic deliveries shall be made by the Contractor(s) only when in possession of a properly authorized and signed Purchase Order issued by the City's Procurement Officer, or his designee. Orders shall be placed by the User Department if, as, and when required by the City. Deliveries shall be to the location identified in each order; the City may require deliveries to multiple locations.

The quantities shown on the bid are estimated quantities only. The City of Rio Rancho reserves the right to purchase more than or less than the quantities shown. In any event, the unit bid prices shall govern for the duration of the contract. Any and all price increases for items specified under the bid shall be mutually agree upon via a contract modification and shall become effective upon written approval of the City's Procurement Officer, or his designee.

Bidder warrants that all deliveries made under the Contract will be of the type and quality specified; the City's Purchasing Agent may reject and/or refuse any delivery which falls below the quality specified in the specifications. The City shall not be held to have accepted any delivery until after an inspection of the same has been made and an opportunity to exercise its right of rejection has been afforded.

Failure by the Contractor to make reasonable delivery as and when requested shall entitle the Purchasing Agent to acquire quantities from alternate sources wherever available, with the right to seek reimbursement from the Contractor for amounts, if any, paid by the City over and above the bid price.

All materials and/or items delivered shall be free of any and all liens and shall upon acceptance thereof become the property of the City free and clear of any material man's, suppliers, or other liens.

Regardless of the award of a Contract hereunder, the City retains the right to purchase the same or similar materials or items from other sources should it be determined that doing so would be in the City's best interest, based on cost and quality considerations.

Acceptance by the City of any delivery shall not relieve the Contractor of any guarantee or warranty, express or implied, nor shall it be considered an acceptance of material not in accordance with the Specification thereby waiving the City's right to request replacement of defective material. All manufacturers' warranties shall insure to the benefit of the City, and replacement of defective materials shall be made promptly upon request.

**SPECIAL CONDITIONS - EQUIPMENT**

Equipment other than current year models will not be considered as responsive to the Specifications. It is the intention of the City to purchase a standard production model based on the Specification. In addition to the equipment set out in the Specifications, the unit(s) shall include all components and accessories as specified in the manufacturer's literature as standard for the production model.

Compliance with or variations from the Specifications must be noted as to each item on the Bid Proposal Form. This requirement must be met even though the Purchasing Agent may alter the Specifications in the form of an addendum to accommodate variances. A request for a change in the Specifications to accommodate a variation must be requested by Bidder(s) at least ten (10) calendar days before the bid opening date.

All requests for such changes will be considered and the merits weighed. Only those changes in Specifications deemed to be in the best interest of the City will be made. In the event of a change in Specifications, an addendum will be issued.

The unit shall be completely assembled, lubricated, adjusted, with all equipment including standard and optional components and accessories installed and the unit made ready for operation.

Bidders must fill in all information asked for in the blanks provided under each item. Failure to completely describe the equipment may result in rejection of the Bid. The City reserves the right to evaluate variations from the specifications and its judgment in such matters shall be conclusive.

The Bidder shall attach hereto, as part of this Bid, regularly printed literature published by the factory, which sets forth and describes the proposed equipment.

All materials and/or items delivered shall be free of any and all liens and shall upon acceptance thereof become the property of the City free and clear of any material man's, suppliers, or other liens.

Acceptance by the City of any delivery shall not relieve the Contractor of any guarantee or warranty, express or implied, nor shall it be considered an acceptance of material not in accordance with the Specification thereby waiving the City's right to request replacement of defective material. All manufacturers' warranties shall insure to the benefit of the City, and replacement of defective materials shall be made promptly upon request.
